

PLT® Mini Rubber Projectile

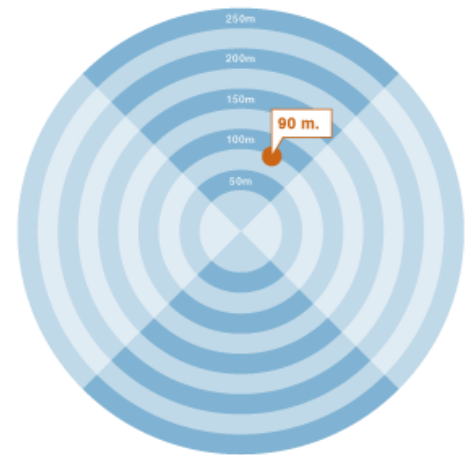

Ideal for landing on deck or ground

Article 4102 Projectile PLT® Mini Rubber

1

Soft projectile made from Polyurethane. Used for general line transfer and training. A light stick can be easily attached for visibility at night. Must be used with external line. Other options of line on request.

Typical launching distance with a dry and clean line of 3,2mm PPL (Art. No. 4109): 90m.
Breaking strength of the line: 1580N (161kg).

Operations

The PLT Mini is very maneuverable and ideal for situations where one needs to react fast from any point on the vessel.
