

Mini Pick-Up Grapple

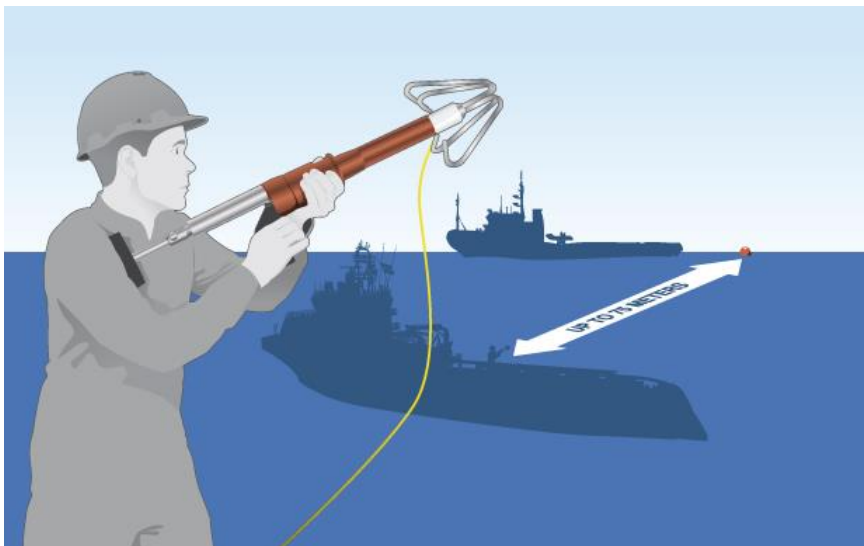

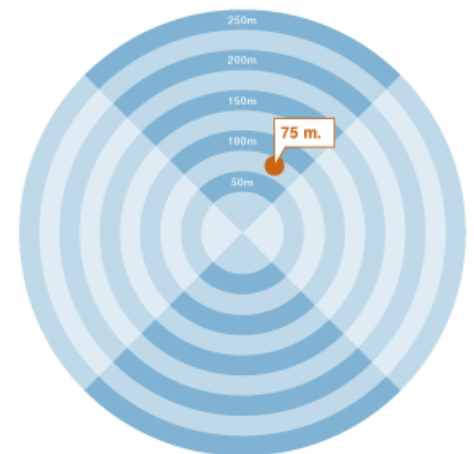

This is a light weight hook for picking up ropes and lines in the sea. The closed ends secure the line within the barbs. Typically used by Rescue vessels, Seismic vessels or Stand by vessels.

Article 4114 Mini Pick-Up Grapple

1

Made from Stainless Steel and plastic.
Typical shooting range with a dry and clean line of 2mm is 75 meters.
Depending on the type of operation you can choose between 2mm Nylon or 2mm Dynema line.

Operations

The PLT Mini is very maneuverable and ideal for situations where one needs to react fast from any point on the vessel. In an emergency towing operation you can use our Mini Pick-Up Grapple to reach the line safely and quickly.

In a situation like this, we recommend using our 2mm Dyneema line with breaking strength 7800N. Typical shooting range with a dry and clean line of 2mm is 75 meters.
